

AI Resume Analyzer Report

ATS Score: 67%

Strengths

- Strong JavaScript, React, Node.js, and Express.js experience
- Proficiency in MongoDB and SQL
- Experience with Git, HTML, CSS, and responsive design (Tailwind CSS)
- Experience building full-stack applications with Next.js
- Familiarity with AI and Machine Learning projects
- Understanding of REST APIs

Missing Skills

- AWS (or other cloud platforms)
- Docker
- Explicit demonstration of problem-solving and communication skills

Suggestions

- Add specific project experience or certifications related to cloud platforms such as AWS.
- Include any experience or knowledge of Docker, possibly through projects.
- Enhance the professional summary or project descriptions to explicitly mention problem-solving and communication skills, perhaps with examples.
